

Dear Members of the APUCSM,

we want to protect our members, for that reason we have selected to protect the section for the members with a password. Regrettably there are still some that believe nothing needs to be done to protect their property and believe in copying what the active members do. Others believe it will not be so serious as so far written. The State of Spain and the city of Rosas have shown us now they mean business!

In the password protected section you will find commentaries about the lawyers and recommendations and what to do now after our objection have been rejected. You also will find a form where you can select from a choice of lawyers, whom we recommend, who shall represent us.

All members of APUCSM will receive a mail from us (if the mailing address is correct) In addition we will try to contact them by fax. Those who have neither, fax or e-mail we will try to contact via post mail, Well the post service in Spain is not the fastest nor the most reliable. Enclosed in the e-mail, fax, or letter you will find the user name and the password to access the member area. Using the above you can access the area and obtain important information's.

Some of our members will get no e-mail from the APUCSM because their address is incomplete or at fault. This of course is unsatisfactory and should be corrected asap. This can only occur with your help. Please talk to your neighbours and friends whether they have received mails from the APUCSM. If not, we beg urgently, to be contacted via an active mail address. Many membership joining forms have been completed in longhand and may contain mistakes if that is the case the mails are returned. Another problem can be an anti virus and spam programs these may reject certain mails identifying these as mass mails or advertising.

Regrettably, we have many members that have no e-mail address or have it just not given. This will result in that they will get just once or twice mail from us, per year.

We apply to you, to help us pass on the information which were sent by mail to those above members. Please let them know what we have written per e-mail.

We will keep you informed via our Website [www.euroclub24.com](http://www.euroclub24.com) on a regular base and of course inform via e-mail to all, with a known e-mail address.

Please inform us asap if you have a new e-mail address.

Thank you very much!  
The board of APUCSM
