

Menendez: The Ley de Costas, the Spanish coastal law....

For a better understanding about what happened in the European Parliament I am attaching a Video from You Tube with a short compilation of the communication in the European Parliament.

<http://www.youtube.com/watch?v=23xO6dButDM>

Once more they have asked for an explanation from the Spanish government and defered the issue until October.

The only two alterations to the Ley de Costas, which are before the Congress, are motions of the PP and the CiU, wich were passed by the senat. We have informed you about that, nevertheless we are attaching a copy.

The PSOE and their functionaries continue to manipulate and to lie.

There is less and less hope that they will listen to reason by the pressure that they expirience from from all sides.
